Keeping all our greens mowers, fairway mowers and other turf equipment in good working order is no easy task. Bruce is the unseen individual particularly responsible for our excellently conditioned golf course.

GREEN SUPERINTENDENT'S CORNER

by Michael Jacques

Now, you all didn't think March would be like February did you? As usual, it was time to turn on the wind switch. To say that it has been a challenge to clean, fertilize and water the course is an understatement.

All seems to be falling into place and appearances where they should be for this time of year. We've had some minor problems with a few greens, wind/water related, but even these areas are waking up.

With the onset of April just around the corner, you can anticipate the normal greens' aerification over the first couple of weeks. By mid-April I project the mowing season will be upon us, as well as the warmer winds.

For the last two weeks, much work has been done on the course. I compliment my staff on their progress. We are off to a good start.

Enjoy the golf season!
